**Re: STIP
Kodiak "Y" Improvement**

Dear Commissioner von Scheben,

Our company owns and operate Gas N Go gas station and automotive repair shop at the "Y". Between our and previous ownership, our company has provided services to Kodiak community for over fifty years.

Kodiak, being a fishing community derives most of its revenues and resources from businesses during the spring and summer months. Businesses experience heavy losses during late fall and winter months and hope to make it up in the summer months.

We urge you to reconsider and honor the prior commitment to re-pave the "Y" and put in new sidewalks in order to dovetail with the improvements that the City of Kodiak will undertake this year.

Your reconsideration will benefit our State through cost reductions, the City by saving the estimated \$330,000.00 slated for pavement after the excavation and installation of water and sewer lines. It will benefit the businesses that provide much needed revenues to the community by cutting their operational losses.

This winter has been extremely difficult for Kodiak community. Your reconsideration will ultimately benefit the community itself.

Sincerely,

**Pat Tabon
Kodiak Terminal Manager**

**Terry Davis
Kodiak Operation**
